### **2. Tees**

Men are going to be playing from the blue tees.

Women are going to be playing from the red tees.

### **3. Reminder on Handicapping**

Handicaps are adjusted for a scramble Here is how, based on the course handicap:

Take 35% of the lowest handicapped player and 15% of the highest handicap player and add them together to get the teams handicap.

For example, Tom has a handicap of 10 and Jerry has a handicap of 15. You would take 35% of Tom's handicap (3.5) and 15% of Jerry's handicap (2.25) and add them together for their team handicap of 5.75.

Also, please note that each team will need to use 6 tee shots from each player.

### **4. Who is playing?**

If you have not done so already and have a registered alternate on your team please let me know which two of the three are going to be playing.
